

Quality Guaranteed Active Optical Equipment QSFP28

Amphenol's 100G QSFP28 to QSFP28 Active Optical Cable assemblies are a reliable, cost and power efficient, integrated solution which is ideal for high density signal transmission ...

This cable is fully compliant with the latest QSFP28 Multi-Source Agreement (MSA), IEEE 802.3bm standards and industry-standard SFF-8636 specifications. It is ...

Multichannel AOCs combine our vertically integrated VCSEL array technology with standard QSFP and SFP+ connectors. They feature low power consumption, low weight, and a small bend radius for ...

Carrier Grade 100G QSFP28 Optics. 100% Tested & Programmed in USA. Fully tested for optical compliance and system compatibility and backed by our industry-leading Limited Lifetime Warranty - ...

Every unit is quality tested for compatibility in the targeted switch environment, which guarantees flawless operations. View compatible list. Choose suitable options based on your applications. ...

These high performance and low power consumption AOCs are Ethernet, InfiniBand and MSA compliant with a robust construction, including a high-strength pull tab latching system which reduces plug loss ...

Active Optical Cable QSFP28 100Gbps Active Optical Cable Breakout QSFP28 100Gbps to 4X28G SFP28 L-com provides a variety of active optical cables (AOCs) for your most challenging and ...

This cable is fully compliant with the latest QSFP28 Multi-Source Agreement (MSA), IEEE 802.3bm standards and industry-standard SFF-8636 specifications. It is compatible with all QSFP and QSFP+ ...

The C-LIGHT 100G AOC Active Optical Cable, built on the QSFP28 form factor and 850nm VCSEL laser technology, delivers outstanding performance in power consumption, interference immunity, ...

Multichannel AOCs combine our vertically integrated VCSEL array technology ...

The 100G QSFP28 AOC cables provide an ideal alternative solution to QSFP28 DAC (direct attach copper cables) and QSFP28 transceivers of short reach while providing improved signal integrity, ...

The QSFP28 Active Optical Cable is one kind of parallel transceiver which provides increased port density and total system cost savings. It has low power scattering and has a rigid force tab for ...

These AOCs comply with hot-pluggable QSFP28 MSA and RoHS-6 standards, ensuring compatibility and

adherence to environmental regulations. By offering a cost-efficient alternative to discrete optical ...
