

# Recommended ExfootDR Fiber Optic Tester

Verifying the integrity of the fiber optic cables with the right OTDR testing methods has never been more vital to be able to quickly identify and locate faults. Getting it right the first time when installing or ...

The MaxTester 730C (MAX-730C) is designed for testing through FTTH/PON splitters for end-to-end characterization. This handheld OTDR is ideal for FTTH/PON testing, live fibre troubleshooting and ...

The EXFO MAX TESTER OTDR 715D Series delivers high-precision testing for fiber optic networks, offering fast, user-friendly diagnostics with advanced analysis tools for optimal field performance.

Discover the 8 best OTDR fiber optic testing equipment (April 2026). Our expert reviews highlight reliable, high-performance tools for accurate fiber network diagnostics and testing.

Light Brigade has partnered with leading manufacturers of fiber optic test and inspection equipment, including EXFO, Fluke, and VIAVI, to offer the best tools such as OTDRs, end face microscopes, live ...

It is optimized for the point-to-point testing and troubleshooting of FTTx architectures, and is ideal for testing short fibers (e.g., inside a CO environment or at FTTA/DAS network installations).

With advanced functions like OTDR, optical power measurement, and loss testing, this device simplifies fibre network installations, maintenance, and troubleshooting.

EXFO offer a broad range of test equipment for fibre-optic systems. These include standalone handheld and benchtop instruments, optical sampling oscilloscopes, tuneable laser sources, and modular ...

It delivers EXFO's tried and true OTDR quality and accuracy along with the best optical performance for right-first-time results, every time. The plug-and-play hardware options, like the VFL, power meter ...

The MaxTester 720C (MAX-720C) provides first-time-right fiber characterization thanks to its short dead zones and effective dynamic range. This compact quad unit is optimized for singlemode and ...
