

Supply voltage: 3.3V Operating temperature: 15°C to +75°C Ultra-low power consumption: 25W
RoHS-6 compliant (lead-free)

Achieved bidirectional transmission at 400 Gb/s over a single fiber using coherent digital subcarrier multiplexing (DSCM). Employed subcarrier interleaving to effectively mitigate Rayleigh ...

Cisco is now offering the new Cisco 400G Digital Coherent BiDi CFP2 capable of supporting single-fiber bidirectional coherent transmission.

Flexible deployment in switches, routers, and WDM platforms and on fiber pairs, single fiber, fixed and flexible grid, ROADM network, etc. Dynamic capacity allocation across the network remotely, set ...

It transmits signals efficiently over single-mode fiber systems using CWDM nominal wavelengths of 1271nm, 1291nm, 1311nm, and 1331nm. A duplex LC SMF connector offers secure and robust ...

It transmits signals efficiently over single-mode fiber systems using CWDM nominal wavelengths of 1271nm, 1291nm, 1311nm, and 1331nm. A duplex LC SMF ...

Deployment flexibility with 800G (dual 400G), 400G, 100G, 50G, 40G, 25G, 10G or 1G modules. Hot swappable to maximize uptime and simplify serviceability . Data rates from 1GbE to 25GbE ...

Finisar's FTCD4538E1PCM DR4+ QSFP112 transceiver modules are designed for use in 400 Gigabit Ethernet links on up to 2km of single-mode fiber. They are compliant with the QSFP112 MSA, and ...

We experimentally evaluate the Rayleigh Back-Scattering power penalty in a single-fiber single-wavelength bidirectional link using coherent digital subcarrier-based transceivers and verify a ...

AscentOptics' 40G SR BD and 100G SR BD series products employ multi-mode single fiber bi-directional optical transceiver design, providing excellent solutions to these issues.

Coherent 400G Finisar Fiber Optic Transceiver Modules are designed for use in Gigabit Ethernet links on various applications, some with FEC. The modules offer hot-pluggable QSFP-DD, ...
