

Use our next-generation AOCs to connect between SFP+ ports, where they provide a lighter and more flexible solution than comparable copper SFP+ direct attach cables (DACs).

These high performance and low power consumption AOCs are Ethernet, InfiniBand and MSA compliant with a robust construction, including a high-strength pull tab latching system which reduces plug loss ...

SFP+-AOC-3m electrical interface conforms to the SFF-8431 standard, providing a quick and reliable interface for 25G Ethernet applications, and the SFP+-AOC-3m has a bidirectional data transmission ...

The SAOC-10G1F2A is a 10Gb/s, hot pluggable active optical cable for Ethernet data transmission. It provides full duplex operation and supports distance up to 100 meters.

Shop active optical cables from Pivotal Optics for data center & enterprise networks. AOC solutions from 10G to 400G SFP & QSFP. Lightweight, flexible cables!

Online shopping. w/24h-delivery, 7Days & Refund Guarantee. CE, RoHS and ISO9001 Certified. SFP+ Cables, QSFP+ Cables, MiniSAS Cables, XFP Cables, CX4 Cables and Fiber Optic Transceivers.

Our active optical cable assembly portfolio provides improved cable flexibility and longer reach as compared to both traditional passive copper and emerging active copper (ACC/AEC) solutions, ...

This AOC is compliant with SFF-8431 MSA standards. It provides a cost-efficient solution as compared to using discrete optical transceivers and optical patch cables and is suitable for 10Gbps connections ...

Compliant with hot-pluggable SFP-DD MSA and RoHS standards, these AOCs present a budget-friendly option for 100Gbps connectivity within or between racks.

The SFP+ Active Optical Cables are direct-attach fiber assemblies with SFP+ connectors. They are suitable for very short distances and offer a cost-effective way to connect within racks and across ...
