

Russian manufacturer optical amplifier 40G

The DSC-R411 is a high-gain PIN + Transimpedance + Limiting amplifier ideally suited for both singlemode & multimode digital applications up to 43 Gb/s. The ...

The enterprise develops and produces optoelectronic systems for various purposes. The plant is a large manufacturer of medical equipment, energy-saving LED lighting, geodetic instruments, and ...

The leading Optical Amplifier Manufacturers in Russia are listed in this directory. You can narrow down the list of manufacturers based on their location and capabilities, browse their product catalogs, view ...

Pages in category "Optics manufacturing companies of Russia"; The following 8 pages are in this category, out of 8 total. This list may not reflect recent changes.

"Atlant Optics" LLC is one of the leading Russian manufacturers of high-precision optics, optomechanical units, and electro-optical systems for science, aerospace and defense industries, ...

JSC "Ekran-optical systems" focuses on technological progress, so that our image intensifier tubes are innovative technologies, multiplied by quality in the best tradition!

BelOMO occupied a leading position in the optical industry of the USSR and has been involved in developing and manufacturing products for special purposes and civilian subjects.

«Atlant Optics» LLC is one of the leading Russian manufacturers of high-precision optics, optomechanical units, and electro-optical systems for science, aerospace and defense industries, ...

The joint-stock company "NOLATECH" is off-the shelf to consider any your proposals in connection with development and manufacturing of lasers, laser modules, semiconductor optical amplifier, ...

The DSC-R411 is a high-gain PIN + Transimpedance + Limiting amplifier ideally suited for both singlemode & multimode digital applications up to 43 Gb/s. The R411 is available in two GPPO ...
