

Seismic Supports for Afghan Cable Tray Busbars

EAE Seismic Support Systems offer rigid solutions for installations that require earthquake protection. The seismic supports, which can be utilized in any type of installation, allows for quick and easy ...

Eaton's TOLCO seismic bracing solutions help protect people and non-structural components during an earthquake. For over 60 years, the mechanical, electrical, and fire protection trades have relied on ...

Designed in compliance with ASCE 7 and the International Building Code (IBC), these kits offer multidirectional restraint and meet stringent requirements for life safety and equipment survivability ...

E-Line A-A (support Systems) are designed for use in buildings and factories, whether made of reinforced concrete or steel, to support systems such as busbars, cable trays, and cable ladders.

"nVent"s seismic experts provide everything we need for a code compliant cable bracing system. Their patented, turn-key seismic solutions give us peace of mind that our building products are properly ...

UNISTRUT Seismic Bracing Solutions ntractors, Specifiers, and others. We have decades of experience with real-world applications in severe seismic zones, supplying orld-class products and solutions. ...

Download the catalog to learn more about our assemblies featuring TOLCO seismic products and B-Line series products that are pre-approved for California Building Code (CBC) 2013, 2016 and 2022.

applied this methodology to our Seismic Bracing Cable system. Loos & Co., Inc. has. been providing seismic bracing cable and hardware since 1993. What we have seen over the years is an evolution ...

We offer a pre-engineered, time-saving solution which braces and secures non-structural equipment within a building to minimise damage from earthquakes or seismic events.

Connect cables directly to 3/8" threaded rod in trapeze installations for seismic bracing. Use 2 EZ BN 3/8 to attach cables to FAS PCH for sway bracing. Predrilled tabs allow attachment directly to concrete ...
