

The HARTING sensor actuator boxes manage signal transmissions and reduce your installation times - thus saving you both time and money. Our passive sensor actuator boxes consist of plastic, ...

The PT series 5-pin M12 connector sensor distribution boxes allow easy power supply and signal transfer to sensors without individual wiring. The PT series can simplify complicated wiring with 4, 6, ...

The passive distribution boxes from LAPP are used for structured wiring of sensors and actuators. The distribution boxes are available with M8 and M12 slots. They are available in different variants: with ...

Phoenix Contact provides a series of sensor/actuator boxes that are specially tailored for every demand. Examples include different thread sizes, various connection technologies for the master cable, and ...

Find a huge range of Sensor Distribution Boxes at Newark Electronics. We stock a large selection of Sensor Distribution Boxes, including new and most popular products from the world's top ...

Download our product catalog for sensor-actuator cabling and circular connectors or our portfolio overview for FieldPower®; distribution boxes for power transmission to find exactly the distribution ...

Also known as power distributors, they're environmentally sealed to keep out dust and moisture and are used to power sensors and actuators in industrial automation and safety applications.

Altech is also a quality supplier of DC UPS system, sensor, safety devices and many other quality product lines. All products meet UL requirements and international standards, and are ROHS and ...

Save space, time and money in the field with our easy to install passive actuator/sensor distribution boxes available with M12 & M8 I/O ports.

This RS PRO M12 splitter box splits and transmits power and data signals to different sensors and other equipment in industrial applications. Use the product to relay signals to eight different components.
