

SINGAPORE, July 17, 2023 /PRNewswire/ -- On July 7, nine module manufacturers including Trina Solar have reached a consensus on standardizing the dimensions of rectangular silicon wafer ...

Companies may submit eCTD packages for actual dossiers through the eCTD portal using SG-HSA eCTD version 1.1, which serves as the official standard for all eCTD submissions.

Module 4: The lack of major changes to Modules 4, coupled with a less granular structure of the Study sections, means that hyperlinks to Module 4 are encouraged.

In a significant move to address challenges in solar module manufacturing, nine leading manufacturers have agreed on the standard dimensions for rectangular silicon wafer modules.

Nine module manufacturers have recently signed an agreement for the standardization of the size of monocrystalline modules and their mounting points.
