

Single-mode pigtail for multimode modules

FS offers single mode & multimode fiber pigtails with tight buffer design for easy fusion or mechanical splicing. Quality assurance by 100% end-face, IL & RL testing.

ST upc fiber pigtail cable is available, we offer single mode and multimode fiber optic pigtails with sc/LC/FC/ST/E2000 connector, Free sample in stock!

High quality pre-terminated 900±181µm optical fiber pigtails with LC, SC, ST connectors for fiber splicing applications. Choose from single mode, multimode and 10G OM3/OM4 fibers.

OneMode™ enables using singlemode optical modules over your existing multimode deployment. This means you can deploy the bandwidth you need: 10G, 40G, and beyond.

OptoSpan Fiber Optic Pigtails have been developed to provide high performance, easy to manage fiber splices. Fiber optic pigtails are available in simplex (1) or 12-fiber solutions, as well as Single-mode ...

Our selection includes three main fiber variants: 9/125µm single mode, 62.5/125 multimode, and 50µm OM3, OM4, and OM5. These pigtails feature premium-grade jackets and are equipped with LC, SC, ...

Singlemode and multimode fiber pigtails each serve distinct roles in optical networks. Singlemode pigtails excel in long-distance, high-bandwidth applications, while multimode pigtails ...

Introduction Choosing between single-mode and multimode fiber optic pigtails is one of the most important decisions in network design.

Available in a range of multimode and single-mode fibers with SC, ST or LC connectors. Our premium pigtails offer low insertion loss and custom length options. Economy pigtails offer over a compelling ...

Fiber optic pigtails are tight buffered fiber cables with a pre-terminated connector on one end and exposed fiber on the other. Our fiber pigtails are available in single mode fiber and multimode fiber ...
