

Schnell single mode fiber pigtails offer high-performance, low-loss terminations for splicing in FTTH, LAN, and telecom networks. Available in LC/PC and SC/PC with OS1 and OS2 fiber types, these ...

Available in a range of multimode and single-mode fibers with SC, ST or LC connectors. Our premium pigtails offer low insertion loss and custom length options. Economy pigtails offer over a compelling ...

What Is an SC/APC Singlemode Fiber Pigtail? A SC/APC Singlemode Fiber Pigtail is a short piece of optical fiber with a pre-terminated SC/APC (Angled Physical Contact) connector on ...

Fiber Optic Pigtail assemblies are utilised in terminating fiber optic cables via fusion splicing. Iveonet (TM) offers a wide range of pigtails, designed and manufactured for demanding network applications, ...

High quality pre-terminated 900µm optical fiber pigtails with LC, SC, ST connectors for fiber splicing applications. Choose from single mode, multimode and 10G OM3/OM4 fibers.

Singlemode pigtails are used for the termination of optical cables via fusion or mechanical splicing. They consist of a high quality 900µm LSZH cable terminated with an optimized connector for low insertion ...

The pigtails are manufactured in state-of-the-art controlled facilities and to strict manufacturing processes. The pigtail are designed to operate over a wide range of wavelengths, ranging from ...

We carry Fiber Optic fusion splicers, cleavers, OTDRs, cables, panels, laser sources, power meters, and many other Fiber Optic products for any project.

Fibre pigtails are used in permanent connections between patch panels and incoming cables / single blown fibres. Pigtails are preconstructed with connectors and used for internal purpose only.

OneMode™ enables using singlemode optical modules over your existing multimode deployment. This means you can deploy the bandwidth you need: 10G, 40G, and beyond. OneMode™ is installed in ...
