

Skeleton-type bundled optical cable factory

Belden's extensive line of indoor and outdoor cable products is offered in tight buffer and loose tube designs. Armored, burial, and ruggedized designs are suited to a host of industrial environments.

In view of the large number of optical fiber cores, frequent offline and branch connections, it is appropriate to use a skeleton-type optical fiber ribbon cable with a high optical fiber assembly density ...

Optical fiber cables supplied in compliance with the specifications can be capable of withstanding the typical service condition for a period of twenty-five (25) years without detriment to the transmission or ...

Many of these bundles can have one of our standard types of terminations. However, many products are OEM based and therefore require a specific design that can be manufactured by one of our top ...

All the designs fully take into account the needs of customers, and are qualified after a number of tests. The all-dry skeleton tight-buffered optical fiber cable provided by ZR Cable is fully ...

The invention discloses a skeleton fiber bundle optical cable with semicircular skeleton grooves, and relates to an optical cable applied to a communication network.

Indoor optical cable is mainly composed of tightly set optical fiber, spinning fiber and PVC outer sheath. According to the type of optical fiber, the optical fiber can be divided into single-mode ...

FiberTech Optica delivers fiber optic bundles to meet almost any requirement. With virtually no limit on the number of fibers, all of our fiber optic bundles can be configured as spot, line, grid, hex, or ...

IDIL designs and manufactures custom optical fiber assemblies, including cables, patch cords, bundles, and probes for industrial applications. Contact us!

Corning offers the most complete line of connectors and factory-terminated cables, from single-fiber patch cords to high-fiber-count assemblies.
