

Discover our telecommunication cable and fiber blowing or floating machine (optical fiber, coaxial or multipair) into pre-installed tubes. For cables and fibers from 9 to 18 mm and for ducts OD 20 to 63 ...

Small but powerful fiber blowing machine, which can blow both blown fibre (EPFU) and micro/nano cables.

Robust and powerful, pneumatic operated fiber blowing machine designed for single cables and for relining of multiple micro ducts. Configuration can be made for cable between 4 and 40 mm and duct ...

Condux International is the premier manufacturer of cable installation tools and equipment for the telecom, fiber optic and electric power markets.

MiniSKY is designed to blow cables from 2.5-16mm (best performance from 4-10mm) into HDPE pipes from 7 up to 63mm! MiniSKY basic kit includes one (1) drive belt set and three (3) pipe ...

We provide solutions and equipment for optical glass making, fiber drawing, fiber coating, ribbon making, proof testing and fiber optic cable production. Our technology is used to produce telecom preforms, ...

MicroSKY blows cables from 1 up to 6mm. Working with air compressor electric motor. MicroSKY accommodates with all the features. It is recommended for fiber cables that contain higher than 1mm ...

Allame Makina's cable blowing machines enable fast and safe laying of fiber optic cables into HDPE pipes.

With over three decades of expertise within fiber blowing equipment, we have built a solid foundation of specialized knowledge in every project. Our extensive range of machines is tailored for all fiber ...
