Al Ashoury factory for cable Support Products:Cable Tray,Cable Ladder,Cable Trunking,Telecom Tower

Chalfant Ladder Cable Tray Systems are ideal for indoor and outdoor cable management. They provide reliability, ease of installation, and cost savings both initially and long term.

Also known as baskets, trunking, or cable ladders, these systems are designed to both route and provide support for vital wiring. Cable tray systems range from simple to highly customized.

Throughout our manufacturing process, we uphold rigorous quality control measures to guarantee the durability, strength, and reliability of our cable tray systems.

They are especially useful in situation situations where changes to a wiring system are anticipated, since new cables can be installed by laying them in the tray, instead of pulling them through a pipe.

Our factory utilizes state-of-the-art technology and precision engineering techniques. With flexible manufacturing processes, we offer bespoke solutions tailored to meet your needs. Built to withstand ...

Cable ladder system allows safe transport of wires across open spans and gives protection against the overheating and also used to manage a large radius of electrical cables used for power distribution. ...
