

# Source manufacturer of vibration dampers for Nordic optical cables

The large and small weights of the VORTX dampers can achieve greater power dissipation and frequency response performance than "symmetrical weight"; Stockbridge damper designs.

GMT supplies rubber and rubber to metal bonded elements to reduce and eliminate unwanted vibration and noise in all kinds of construction equipment. High-frequency loads require elastomer qualities ...

Today, PFISTERER can supply powerful units with excellent performance, suitable for any type of overhead cable, for example OPGW, AAAC, ACSR, etc. PFISTERER vibration dampers can be ...

Founded in 1936, Vibrostop made its name as one of the most dynamic companies specialized in the design and construction of rubber-metal vibration, impact, and noise isolators.

So can be said of SAPREM"D5s vibration dampers whose drawings and data follows. They are asymmetrical, Stockbridge type, dampers with four resonance modes, of his own design and ...

Our mission is to offer innovative and effective vibration, noise and shock control solutions for demanding environments and applications globally. ResonanceKiller is our core product, globally ...

Vibration Dampers - Conductor vibration induces a relative motion between the clamp and the inertia weights which causes flexure of the steel cable, resulting in dissipation of mechanical energy by ...

Over the years Vibrostop has designed various highly engineered devices to satisfy every application required by customers. We design and manufacture customized anti-vibration mounts for numerous ...

Vi tilbyder et stort udvalg indenfor vibrationsd&#230;mpere og vibrationsd&#230;mpning.

For over 50 years, Otto Olsen has supplied vibration dampers to the technical industry in Norway. As a partner to several of Europe's leading manufacturers, we offer a wide range of quality products for ...
