

# Sri Lanka x Fluorescence Multi-Element Spectrometer

Carlton Lanka Pvt Ltd is the # 1 in quality for laboratory and industrial equipment including spectrophotometers, Portable gas detectors and laboratory Reference Standards.

This system helps you easily identify foods based on their content: foods high in sugar, salt, or fat are marked with a red logo, those with moderate levels have an amber logo, and foods low in these ...

The SPECTRO XEPOS spectrometer represents an analytical performance in a class by itself in energy dispersive X-ray fluorescence (ED-XRF) technology. It provides breakthrough advances in multi ...

We offer a wide range of X-ray fluorescence (XRF) instruments designed to meet the needs of every industry. Our robust family of Thermo Scientific ARL XRF spectrometers provides fast, repeatable ...

Handheld X-ray Fluorescence Infrared, Near Infrared and Raman Spectroscopy Mass Spectrometry, DART-MS Microbiology and Diagnostics

X-Ray Fluorescence (XRF) technique is a major nuclear analytical technique widely used throughout the world for multi-elemental analysis, the identification of basic chemical elements that material or object ...

Multi-elemental analysis of materials and objects using X-Ray Fluorescence technique (XRF). The test results of the service could be useful in fulfilling local or international regulatory requirements or for ...

X-ray fluorescence (XRF) spectroscopy is a classical method for the determination of the major and minor elements as well as some trace elements. We offer you accurate, precise XRF along with the ...

Fluorescence spectrometry is a fast, simple and inexpensive method to determine the concentration of an analyte in solution based on its fluorescent properties. It can be used for relatively simple ...

Sri Lanka X Ray Fluorescence Spectrometer Suppliers Directory provides list of Sri Lanka X Ray Fluorescence Spectrometer Suppliers & Exporters who wanted to export x ray fluorescence ...
