

Standard for Self-Supporting Optical Cable Clamps

The combination of strand and optical fiber into a single cable allows rapid one-step installation and results in a more durable aerial plant. This procedure provides general guidance for the installation of ...

Their comprehensive solutions for outdoor optical cable needs, particularly the integration of anchor clamps and all-dielectric self-supporting (ADSS) cables, have set a new ...

Get everything you need for successful ADSS cable installation: suspension clamps, anchor clamps, down lead clamps, and pole fittings. Proven performance in power and telecom ...

ADSS suspension clamp is a heavy duty, versatile, and reliable solution for securely suspending ADSS (All Dielectric Self-Support) aerial fiber optic cable. The versatility of the clamp allows the installer to ...

CommScope designs and manufactures a variety of Fiber Cable Clamps and Grounding Kits

OMC's durable fiber cable clamp for organizing and protecting fiber optic cables. Easy installation ensures stable support in FTTH and telecom networks.

Heavy-duty anchor clamps for ADSS fiber optic cables, providing secure tension termination and reliable performance in aerial networks.

Used to support short or medium length spans of ADSS fiber optic cable on utility poles. The cushioned insert gently grips the cable without causing damage. Hand tighten wing nut to 25 inch pounds. The ...

[Home](#) / [Products](#) / [Conductor Accessories](#) / [Fiber Optic Cable Hardware](#) / [ADSS Hardware](#)

An ADSS cable anchor clamp is a mechanical device engineered to secure self-supporting dielectric fiber optic cables to aerial structures (poles, towers, or facades).

The Hubbell hanging aluminum ADSS suspension clamp is a heavy duty, versatile, and reliable solution for securely suspending ADSS (All Dielectric Self-Support) aerial fiber optic cable.

All dielectric self-supporting fiber optic cable can be installed without a messenger over relatively long spans. ADSS installation will be covered later.

Jera Line specializes in providing ADSS (All-Dielectric Self-Supporting) self-supporting cable and clamp systems, designed for reliable overhead optical fiber communication networks.

Standard for Self-Supporting Optical Cable Clamps

This guide provides general recommendations for the selection of methods, equipment, and tools for the stringing of All Dielectric Self-Supporting (ADSS) fibre optic cables.
