All porches, balconies etc. should have one receptacle so long as they are attached or close enough (within 4' of) of the dwelling unit.

Explore a searchable database of US construction and building code. Code regulations are consolidated by state and city for easier navigation.

Attached decks and balconies with interior access (including a door to the indoors) must have a receptacle no more than 6 1/2 feet above the deck or balcony walking surface.

Now, receptacles are required for any balcony, deck or porch that is within 4 inches of the dwelling unit, whether physically connected to the dwelling or not. Below is a preview of the NEC 406.9:
