

High-performance 10Gb SFP SFP+ module BiDi optical modules with 20km reach. Dual wavelength options (TX1270/RX1330 and TX1330/RX1270), industrial/commercial temperature support, and ...

The fronthaul optical module mainly includes 25Gb/s and 100Gb/s two rate types, supporting hundreds of meters to 20 km of typical transmission distance.

The SFP+ LR transceiver module provide stable communication up to 20 kilometers, saving on cable resources while maintaining high performance. ??Technical Specifications? The ...

Discover everything you need to know about SFP optical transceiver modules for long-distance fiber transmission. Compare LX, EX, ZX models and choose the right module for your ...

SFP-GE-S20-D1310 optical module has high cost performance, supports 1.25G transmission rate and a transmission distance of 20km. Machine control unit. All of our optical modules meet laser safety ...

SFP-GE-S20-D1310 optical module has high cost performance, ...

The SFP transceivers are high performance, cost effective modules supporting data-rate of 1.25Gbps and 80km transmission distance with SMF.

Each single mode 10G SFP+ transceiver is equipped with a duplex LC fiber connection interface, and supports high-speed data rates up to 10.31Gbps. All TRENDnet 10G SFP+ fiber modules support ...

High-performance 10Gb SFP SFP+ module BiDi optical modules with 20km reach. Dual wavelength options (TX1270/RX1330 and TX1330/RX1270), ...

When selecting a reliable fiber optic solution for medium-distance data transmission, a 10G 20km SFP+ module is often the optimal choice for balancing speed, reach, and cost.

In order to use different type of fiber, we also classify optical transceiver modules into single-mode optical modules and multi-mode optical modules. Single-mode optical module is used to ...

With a 9dB guaranteed optical link budget, this module covers campus and inter-site links up to 20km. Dual-rate operation supports 1G Ethernet (1.25 Gbps) and 10GBASE-LR (10.3125 Gbps). IEEE ...
