

Tunisia Server Rack Cold Aisle 1U Installation Solution

This solution captures many requirements typically placed on the building shell and places it closer to the equipment. This includes busway, conveyance, docking, and other ancillary items.

The AisleLok™ Adjustable Rack Gap Panel is an ideal solution for closing off gaps between racks, such as those created by building support columns or missing IT racks.

Get expert hot and cold aisle containment solutions for your data centres with Ardmac. Our tailored approach maximises efficiency.

ABBA RACK Cold Aisle Containment (CAC) designed with the modular system and easy to assemble for your current and future application needs, from colocation to enterprise and hyperscale data ...
