

US bulk purchase of PAM4 active optical fiber cables

400G QSFP-DD Active Optical Cables are designed for high-speed data transmission in data centers and enterprise networks.

We carry a vast selection of fiber optic products including bulk fiber cables and have an extensive selection of tools and products to optimize your fiber cable management and protection capabilities.

Thin and lightweight AOC cables simplify cable management, enabling an efficient system airflow, which is critical in high-density racks. It is used extensively in cloud and supercomputers due to its low cost, ...

FIBERSTAMP 800G OSFP AOC active optical cable is used for short-distance interconnections between equipment within data centers and are compliant with the IEEE 802.3cm transport protocol, ...

Offerings include multi-pair cables: 2, 4 and 8 pair constructions in wire gages from 32 AWG to 26 AWG, they are capable of transmitting speeds of 10G, 28G, 56G, 112G, and 224G PAM 4 ...

Our active optical cable assembly portfolio provides greater cable flexibility and longer reach, as compared to both traditional passive copper solutions and emerging active copper (ACC/AEC) ...

The QSFP DD AOCs operate up to 26.5625GBd PAM4 modulation and provide solutions up to 400Gb/s aggregate bandwidth, supporting 100 meters over parallel multi-mode fiber. They are an ideal choice ...

Featuring advanced QSFP56 packaging, this active optical cable delivers an aggregate bandwidth of 200Gbps through 4x50G PAM4 modulation technology, offering exceptional transmission ...

FIBERSTAMP 800G OSFP AOC active optical cable is used for ...
