

Perle 10 Gigabit Optical Transceivers are interchangeable, compact media connectors and enable a single network device to connect to a wide variety of fiber types and distances. For use with Perle 10 ...

This setup combines four 10G XFP connections into a single 40G QSFP+ uplink, optimizing bandwidth utilization while reducing cabling complexity. Learn more about aggregation possibilities, including ...

Our 10G XFP 20km transceiver provides extended-reach connectivity for metropolitan networks. Supporting up to 20km transmission over single-mode fiber at 1310nm wavelength, this 10G XFP ...

It is fully compliant to XFP MSA Rev 4.5. The modules are designed for single ...

We offer a choice of standard XFP modules as a complement to our fiber-optic based products. These modules come from various third-party manufacturers. For your convenience, we specify them by ...

Perle 10 Gigabit Optical Transceivers are interchangeable, compact media connectors and enable a single network device to connect to a wide variety of ...

The XFP Optical Transceiver is a hot-pluggable transceiver module that is designed to transmit and receive data over a single fiber optic cable. It is compliant with the IEEE 802.3ae 10 Gigabit Ethernet ...

Single-Fiber Solution: Our XFP BIDI transceivers provide a cost-effective solution for network deployments where the availability of fiber strands is limited. By transmitting and receiving data on a ...

XFP are available with a variety of transmitter and receiver types, allowing users to select the appropriate transceiver for each link to provide the required optical reach over the available optical ...

It is fully compliant to XFP MSA Rev 4.5. The modules are designed for single mode fiber and operates at a nominal wavelength of 850/1310/1550 nm. The transmitter section incorporates uncooled directly ...

The 10G XFP Optical Transceiver Module supports up to 80km link lengths over SMF via an LC duplex connector. The transceiver is compliant with CPRI, eCPRI. Digital diagnostics functions are available ...

The Skylane XFP is a high performance transceivers module for 10 Gigabit Ethernet data links over 4 different fiber types. The maximum reach is 80km. This transceiver module is compliant the XFP ...
