ZT Distribution Box RGB-ZT2416 features dual protection functions and is a power distribution product specifically designed for overcurrent and short circuit of electrical equipment.

An RGB ZT distribution box, integrating DMX512 splitting functionality, effectively eliminates signal degradation and daisy-chain limitations by creating multiple isolated DMX lines from ...

Zero Torque UL Listed Power Distribution Blocks have push-in terminals for all load-distributing terminals. These blocks eliminate the torque process required on traditional mechanical terminals.

Free Shipping - SOTAbears 4-Way DC Distribution Boxes with qualifying orders of \$99. Shop DC Multiple Outlet Panels at DX Engineering.

Free Shipping - SOTAbears 4-Way DC Distribution Boxes with qualifying orders ...

ZT-104 is an active 16-way power splitter optimised for distribution of 10 MHz reference signals. The system provides approximately 6 dB loss per path, with excellent input match to the reference source ...

12X12 DISTRIBUTION BOX KIT The 12" Polylok Square Distribution Box comes factory pre-cut with one inlet and three outlets. Four seal assemblies are provided with each unit and will accept 2", 3", and 4" ...

Discover RGB's ZT Distribution Box and Field Aviation Power Rack, offering robust power distribution and seamless DMX512 compatibility for advanced stage lighting control.

A Box-Type Substation is a compact and versatile electrical distribution unit designed to efficiently transform and distribute electricity. These substations are ideal for urban areas and industrial ...

For test systems requiring distribution of signal to many DUTs, Mini-Circuits' signal distribution systems combine splitter/combiners and directional couplers to expand test signal into multiple channels.
